PERMANENT MAKEUP

MICROBLADING

This is a semi-permanent method of tattooing that is created using tiny hair like strokes, resulting in the most natural looking alternative for those with sparse or thinning brows.

At Studio Nooshin, we believe that no two brows are alike, so before your treatment, you will start with a consultation to discuss the desired shape and color you have in mind for your brows. Even if you don't have much hair to follow, your natural born structure will guide us to what will look best on you.

POWDERED BROWS

If you are someone who prefers a fuller brow but still wants a soft textured look, you may want to consider the powdered technique. This technique mimics the appearance of conventional brow makeup whether it be a brow pencil or brow shadow.

The result of either choice is clean and natural looking symmetrical eyebrows that are perfectly placed and colored. Whether you have very light eyebrows or no eyebrows at all, cosmetic tattoo special treatment can help change your life.

Pricing: \$400

****Please note:** Brows will appear darker during the healing process due to the natural scabbing during the first week. This is common in all permanent cosmetic procedures**

EYEBROWS

THREADING

While threading originated in Japan, Persians have been using this hair removal method for years. Threading is the art of taking a simple spool of 100% cotton thread and twisting it so that as it twists, it removes hair and exfoliates at the same time. This gives a more natural look to the removal and grow back process, leaving the skin soft to the touch.

Pricing: \$25

WAXING

While we specialize in threading, we find that some customers prefer waxing, and we are happy to accommodate! In addition to facial waxing, we also offer body waxing for a smooth, long-lasting hair removal.

Pricing: \$25

TINTING

Unlike shaping waxing, threading, or tweezing, brow-tinting is a color service that doesn't take away any hair (although you can do so in conjunction with hair removal) but uses semi-permanent dye to enhance color, shape, and thickness — or all of the above. The dyes we use are designed specifically for use on the eyelash and eyebrows. It's not harmful, looks natural and lasts a long time.
